LET'S DISCUSS WHAT MATTERS MOST FOR CONTINUITY OF CARE

Join fellow innovators at APCC 2018 if you are looking for a:

FRESH PERSPECTIVE through awareness of what matters most to patients, providers and systems regarding continuity of care.

PLACE TO START by understanding the components of continuity and what facilitators and barriers matter most in advancing continuity of care.

KNOWLEDGE of the gaps that patients and providers experience and identification of opportunities within the continuum of care.

DESIRE TO ADAPT by recognizing the unique needs of patients and families.

RECOGNITION of the potential technology has to foster improvements in continuity of care.

NEW ENERGY to get started through engaging conversations with peers, families and patients to develop action plans and share the best practices that are worth spreading and scaling.
