

Excellence in Quality: Living with Illness

Nomination Questions

Note: This document is NOT a nomination form. It is intended only as a reference to help you choose a category for your Quality Awards nomination and understand what information you will need to provide. Nominations must be submitted using our [online nomination platform](#). We do not accept Word/PDF nominations via email.

Section 1: Improving the Quality of Care

Briefly summarize the team or initiative. **(150 words maximum)**

Explain the team or initiative, as well as the problem(s) it solved, in more detail. **(1,000 words maximum)**

How did the team or initiative improve care in one or more of the following dimensions of quality: acceptability, appropriateness, accessibility, safety, effectiveness, equity and/or efficiency? *For more information on these dimensions of quality and how they can help identify improvements in the quality of care, please review the [BC Health Quality Matrix handbook](#).* **(1,000 words maximum)**

Section 2: Evidence

Provide clear evidence that the team or initiative has improved the quality of care. Evidence of results can be quantitative or qualitative. **(1,000 words maximum)**

Section 3: Sustainability

How did the team plan for new ways of working and improved outcomes to become the norm? What is it doing to ensure the project's continued sustainability? **(1,000 words maximum)**

Section 4: Engagement

Who did the team engage in the project in order to help its success and sustainability? How were they engaged? **(1,000 words maximum)**
