# Engage to Improve: Using Liberating Structures in Everyday Interactions

Cathy Almost  
Engagement Leader,  
Northwest  
BC Patient Safety &  
Quality Council

Anthony Gagne  
Leader, Learning &  
Capability Development  
BC Patient Safety &  
Quality Council

# Interacting in WebEx

The screenshot shows the Cisco WebEx Training interface. At the top, there is a menu bar with options: File, Edit, Share, View, Audio, Participant, Session, Breakout, Help. Below the menu bar, there are tabs for Quick Start, Session Info, and Whiteboard. The Whiteboard tab is active, and a toolbar with various drawing tools is visible. A whiteboard area is shown with a blue border. On the right side, there is a Participants panel with a list of participants: Panelist: 1, BCPSQC - 2 (Host, me), and Attendee: 0. Below the participants list, there is a Chat panel with a text input field and a Send button. The interface is highlighted with orange boxes around the drawing toolbar, the participants list, and the chat input field.

## Today's Tools:

1. Chat

2. Raise Hand

3. Yes / No ✓ or ✗

4. Pointer

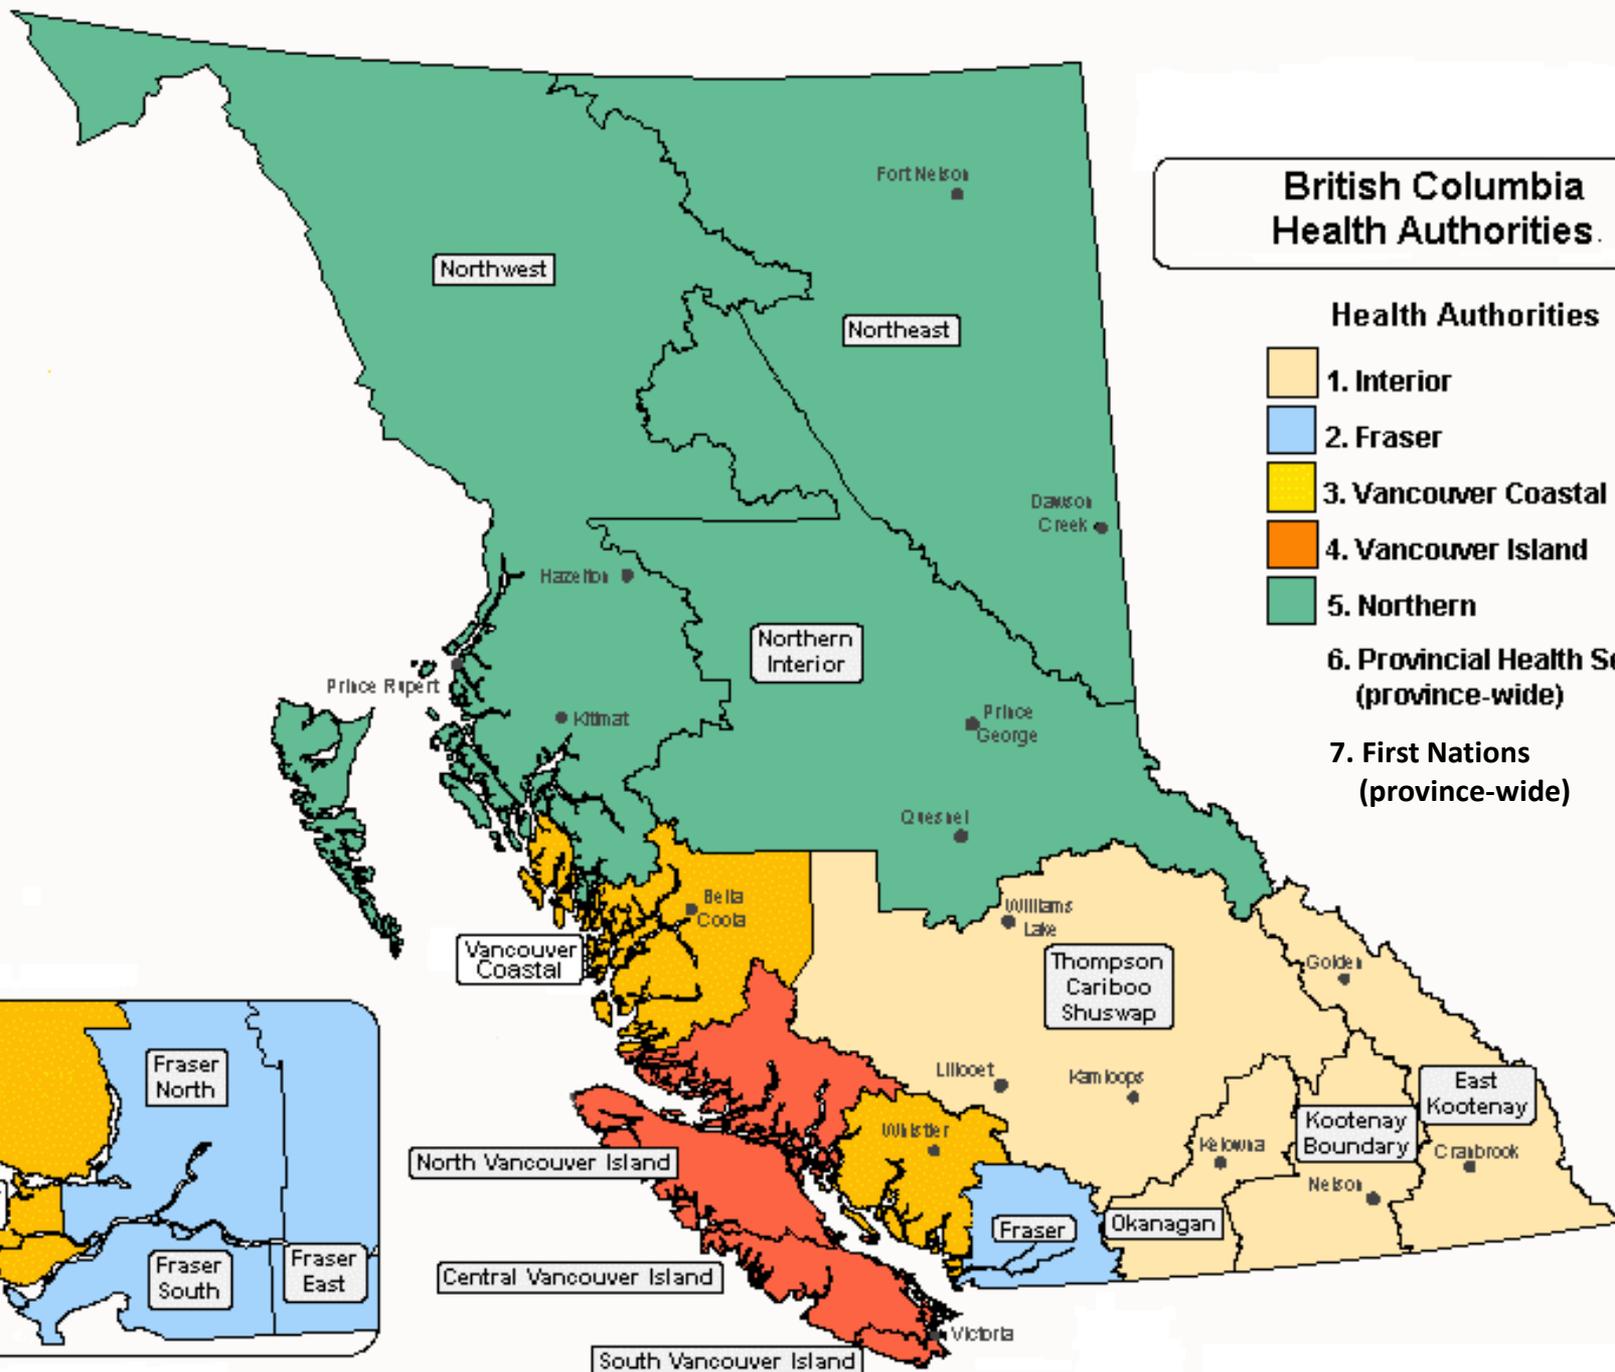

## British Columbia Health Authorities

### Health Authorities

- 1. Interior
- 2. Fraser
- 3. Vancouver Coastal
- 4. Vancouver Island
- 5. Northern

6. Provincial Health Service  
(province-wide)

7. First Nations  
(province-wide)

# ENGAGE TO IMPROVE

Creative Solutions for Working Better Together

BC PATIENT SAFETY  
& QUALITY COUNCIL

Working Together. Accelerating Improvement.

# Today's objectives

## In this webinar we will:

Describe the theory behind Liberating Structures

Discuss how Liberating Structures can be used to foster more participatory meetings.

Explore how Liberating Structures can be utilized in our regular interactions

State key concerns and opportunities to using Liberating Structures to facilitate virtual meetings

# Have you Experienced LS as a participant?"

Yes

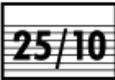

No

# Have you experienced LS as a Facilitator?

Yes

No

# INTRODUCING LIBERATING STRUCTURES

<p>LS Menu</p> 	<p>Wicked questions</p> 	<p>What<sup>3</sup> debrief</p> 	<p>Min specs</p> 	<p>Heard, seen respected</p> 	<p>What I need from you</p> 	<p>Integrated autonomy</p> 
<p>Design elements</p> 	<p>Appreciative interviews</p> 	<p>Discovery and action dialog</p> 	<p>Improv prototyping</p> 	<p>Drawing together</p> 	<p>Open space</p> 	<p>Critical uncertainties</p> 
<p>1-2-4-All</p> 	<p>TRIZ</p> 	<p>Shift &amp; share</p> 	<p>Helping heuristics</p> 	<p>Design storyboards</p> 	<p>Generative relationships</p> 	<p>Ecocycle</p> 
<p>Impromptu networking</p> 	<p>15% solutions</p> 	<p>25 : 10 crowdsourcing</p> 	<p>Conversation café</p> 	<p>Celebrity interview</p> 	<p>Agree/certainty matrix</p> 	<p>Panarchy</p> 
<p>9-whys</p> 	<p>Troika consulting</p> 	<p>Wise crowds</p> 	<p>User experience fishbowl</p> 	<p>Social network webbing</p> 	<p>Simple ethnography</p> 	<p>Purpose to practice</p> 

*Simple Rules that make it easy to include and  
**unleash everyone** in shaping the future*

# Liberating Structures are:

Unique, fun and engaging **facilitation techniques** to engage everyone and bring out great ideas in meetings, training sessions, and public consultations.

Structured just enough to **achieve results** without controlling the outcomes or process.

Designed to **change that which we have control over** to free stakeholders to contribute.

# So how do they work?

Liberating Structures **induce small changes** in the ways we meet, plan, decide and relate to each other.

These microstructures are set up to make sure all participants have a voice and are given the opportunity to **safely share** their thoughts. This allows us to account for all perspectives and create solutions that everyone can get behind.

# Attributes of Liberating Structures

- 1. Expert-less:** they require only a few minutes to introduce; novices can succeed after a first experience
- 2. Results-focused:** likely to generate better-than-expected purposeful results
- 3. Rapid cycling:** fast iterative rounds are very productive
- 4. Seriously fun:** boosts joy, freedom & responsibility.
- 5. Inclusive:** together, everyone is invited to shape next steps.
- 6. Multi-scale:** works for everyday solution, projects, strategy and movements.
- 7. Self-spreading:** simple to copy without formal training.
- 8. Modular:** the parts can be combined and re-combined endlessly

# They help **engage people** by:

- ✓ Allowing others to **ask for help**;
- ✓ Strengthening **relationships** and building trust;
- ✓ Developing **shared understanding** of what is important, and
- ✓ Allowing past successes and **real-world solutions** to be identified and adapted.

# Diverse Stakeholders

Not only for **extroverts**

Allows people to be engaged in multiple ways at the same time – takes advantage of the **diversity in the room** to arrive at the best solution possible.

# How do we make it work?

## 5 Structural Elements:

1. **Invitation** to participate
2. How space is **arranged** and what **materials** are needed
3. How participants are **distributed**
4. How groups are **configured**
5. Sequence of **steps** and allotted time

# How can we use Liberating Structures to **improve services**?

Invites those with **experience** to suggest and explore solutions

Allows **successes** and **potential solutions** from other teams to emerge

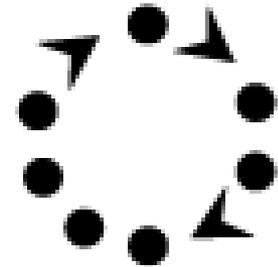

Addresses the **root causes** of ongoing, complex challenges

Identifies and develops strategies to **move our work forwards**

# 1-2-4-ALL

*Engage everyone simultaneously  
in generating questions,  
ideas and suggestions*

*Means of simultaneously engaging large groups, distilling many ideas into key themes, and allowing everyone to participate!*

# Instructions

**Self-reflection** on the question (no talking) – 1 min

**Pair up** and discuss what you are thinking – 2 min

**Form a quad** and discuss, identifying key points and **themes** – 4 min

Whole group debrief and sharing of **“Ah-ha!” Moments** – 5 min

# What about Liberating structures in our **regular interactions**?

↶ Above points about using Liberating Structures to improve services hold **true**

🔗 Frees us from **rigid structures** and **counterproductive habits** we fall into unconsciously

☑ Just enough **rules** to allow us to work together while letting **engagement** happen fully.

What ways have  
you used  
Liberating  
Structures at  
your work?

# How do we know **which** Liberating Structure to use?

Test Safely, test often

Read the descriptions on website or app, and be flexible in creative in seeing it yourself.

Slack group Slack is a collaboration hub, where the right people and the right information come together, helping everyone get work done.

Fail Forward

# Wicked Questions

- Will our government use the increased capital from cannabis sales to increase and accept the recommendation of the *National Mental Health Commission*: that **mental health expenditures ought to be 9% of total health spending**?
- If we truly had a “**patient-centred system**“, why are there waiting lists for patients to be attached to a GP?
- Why is *Case Management* seen more as an efficiency tool for our hospitals than a way to provide support to patients and their families to get them the “right service, by the right provider, in the right place, in a timely manner”?

# Using Liberating Structures in regular interactions - **Examples**

**1-2-4-All** – used in huddles to ensure everyone has an opportunity to contribute fully, regardless of natural tendencies and power imbalances.

**TRIZ** – Determining the best ways to buy groceries

# Using Liberating Structures in **Virtual Meetings**

-  Enhances participation and engagement
-  Allows for rapid sharing and refinement of ideas.
-  Creates opportunities for collaboration if platform supports this.

# Open Space or Unconference

Chris Corrigan-

[chriscorrigan.com/parkinglot/planning-an-open-space-technology-meeting/](https://chriscorrigan.com/parkinglot/planning-an-open-space-technology-meeting/)

Lessons learned

- Webex, breakout rooms
- Tech support
- Practice, practice, practice

# Structural Adjustments - TRIZ

## Regular Steps – In Groups:

- 1) Brainstorm all the ways we might achieve the worst-possible outcomes for our patients. **8-10min**
- 2) Identify all elements from part 1 that we are currently doing, even a little bit. **8-10min**
- 3) From part 2, choose one or two counterproductive behaviours and come up with initial improvement ideas. **8-10min**
- 4) Whole-group debrief and report out..

## Virtual steps:

- 1) Individually, generate a list of all the ways we might achieve the worst-possible outcome for our patients. **2min**
- 2) In pairs (assigned by facilitator), go to your breakout room, compare your lists and identify which behaviours we are currently doing, even a little bit. **5min**
- 3) Create a foursome and generate ideas on how we might be able to stop identified counterproductive behaviours. **10min**
- 4) Whole-group debrief and report out.

# A note on **structural adjustments** of Liberating Structures

⚠ Take care – LS are designed the way they are for a reason!

– Min-specs in the North

🧪 Think carefully about what changes you are making and how it may impact the result.

🧑 Practice, practice, practice

***“We want to create opportunities for everyone (including ourselves) to become what they are capable of becoming. Plus, we want to inspire more kindness and reduce suffering in the world.”***

*- Keith McCandless  
- Henri Lipmanowicz*

# Questions?

# THE END!

Thank you for being present here today.

Thank you for seeking to engage  
– we need your efforts now more than ever.

Stay in touch!!
